Heat transfer press

Praktische Helfer

Bring your iron-on film but even faster and easier on your textiles, with our transfer presses.

- Manufacturer information on pressing time / temperature are easier to implement. Thus you can keep the optimal and recommended specifications.
- Even distribution of heat
- Facilitates multicolor plotting of iron-on film
- Easy on your iron - precise & easy to use
- Smooth and even pressing surface - No problems with steam holes from the iron

iXpress Mini 2

MSR 65 €

Available beginning of October

The iXpress Mini 2 is a small heat press which is ideal for pressing on small motifs. Especially on smaller corners, between buttons and seams it can be easily used to achieve optimal results.

Especially small areas like stuffed animals, baby shoes or hats can be finished with the iXpress Mini 2.

The iXpress Mini 2 is compatible Iron-on foil and sublimation materials.

- Easily apply iron-on foil & sublimation designs
- Ideal for small projects
- Easy to use
- Space-saving and quickly stowed away
- 6 x 10 cm pressing area
- 205°C maximum temperature

Transferpressen

iXpress Midi

MSR 129 €

Available beginning of October

With the iXpress Midi you can easily design your textiles and other surfaces yourself. Whether with Iron-on foil or via sublimation - you decide! Thanks to its compact design, the iXpress Midi can be quickly stowed away and will also find a place in your creative room!

- Easy to apply iron-on foil & sublimation designs
- Ideal for small and medium projects
- Easy to use
- 12 x 17,5 cm pressing area
- 205°C maximum temperature

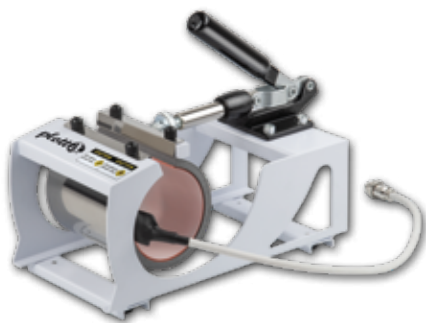

iXpress Classic

MSR 179 €

iXpress - the new transfer press from plottiX! The iXpress is ideal to apply all types of heat transfer foils to textiles.

iXpress heat press

- Very easy to use
- Adjustable temperature (100-200 °C)
- Timer function for the perfect pressing time (1-300 sec.)
- 22.5 x 22.5 cm non-stick pressing surface
- Space-saving

Mug Press

MSR 119 €

Sublimation very simple for your cups with polyester coating. Transfer your own motifs directly onto your mug with the help of sublimation foils!

Save money & be flexible

With the mug press you can implement colorful designs. This flexibility gives you even more freedom. So it can no longer happen that you don't have the right color at hand or have to buy more.

The plottiX iXpress is required for use. First you connect your cup press to the plottiX heat press. With this you can set the temperature and time for the sublimation process.

Attachment for plottix mug press

MSR from 54,99 €

With the inserts you can now work even more flexibly with the plottiX cup press. In minutes these inserts are exchanged.

Embellish different cups and mugs according to your ideas*

Available for following mug sizes:

- Cone cups (12oz)
- Small cups (10oz)
- Medium cups (11oz) – This insert is included with the purchase of a plottiX cup press.

iXpress Mug

MSR 179 €

Available beginning of October

Designing and sublimating mugs is easy with the iXpress Mug mug press. Photos, lettering, patterns and many other designs can be transferred to your mug in one step with the mug press. (Your mug must have at least 80% polyester content).

Ideal as a gift or for your own home!
The iXpress Mug is compatible with our sublimation material.

- Easy to apply sublimation designs
- Usable with standard mugs with a diameter of 8,13 - 8,38 cm (11oz)

iXpress Plus

MSR 319 €

The iXpress Plus is compact and comes with many advantages of larger transfer presses. Thanks to its stable hold, you can conveniently close and open the press with the lever. Simply set the time and temperature and beautify your textiles!

- Apply your iron-on foils easily
- Simple and easy in use
- Universally applicable
- High quality molded aluminum platen
- High quality coating
- Adjustable pressure
- Fast heat-up
- 220°C Maximum Temperature

iXpress Pro

MSR 439 €

The iXpress Pro is a professional and big heat press. High quality and sturdy materials make this heat press the perfect tool for everyone who wants more from their heat press. Excellent and easy to work with!

- Quick & easy optional adjustment
- Suitable for large projects
- Large pressing area of 38 x 38cm
- High quality aluminum plate
- High quality coating of the heating plate
- Adjustable pressure
- Fast heat up
- 220°C maximum temperature

Silicone mat for transfer presses

MSR 12,99 €

Silicone base for pressing with transfer presses.
Protects the base for overheating.

- Size: 29 x 29 x 0,7 cm

Transferpressen

Heat Press Pillow

MSR from 14,99 €

The Heat Press Pillow helps to compensate the height difference of a zipper, button or a thicker seam, so that the heat press can make your plot press evenly onto the textile.

Heat-resistant Antistick Sheet for heat press

MSR 4,99 €

Size: 29 x 29 cm & 38 x 38 cm

The antistick sheets protects your heatpress against damaged or soil if the design is not placed properly.

Thus, the antistick sheet protects your design and your heat press.

Heat resistant adhesive tape

MSR 7,99 €

The heat-resistant adhesive tape is best suited for sublimation. Attach your previously printed motif to your desired surface with the adhesive tape. This prevents the motif from slipping during sublimation.

• Size: Width: 2cm x Length: 33m

Sublimation

Use your own designs & photos

Our plottiX items for sublimation are high quality and perfectly suitable for sublimation.

Whether mugs, cushions, shirts or pendants - Choose from a variety of media suitable for sublimation. We offer different sublimation articles for your creative projects.

Polyester-coated materials (min. 80% polyester content) are suitable for sublimation.

Sublimation markers

MSR from 14,99 €

With the sublimation pens you can draw your own designs and then transfer them to your surface via sublimation and heat.

The prerequisite for this is that your surfaces have a polyester content of at least 80%. Only then can the sublimation ink be transferred.

Sublimation paper

MSR 14,99 €

The plottiX sublimation paper is specially designed for sublimation ink and transferring designs via sublimation. High quality and affordable! – Thanks to the special development, you can optimally sublimate your designs and give free rein to your creativity.

Grid

With the help of the grid on the back you can not only see the printable front side at a glance, but you can also align your design even easier!

In each package you get 100 pages of plottiX sublimation paper.

The colors shown may differ from the original and are for guidance only.
The indication of the MSR is incl. sales tax.

Sublimation

11oz Mug white

MSR 2,49 €

Great as a gift idea or souvenir. These special mugs you can design yourself! Print design and press on the cup via heat.

Countless creative ideas can thus be implemented – For a very personal gift or for example your logo!

12oz Mug - Cone white

MSR 2,75 €

This cone shaped mug can be customized with your personal design or photo. All from home! Thanks to the special polyester surface you can sublimate your motif on this cup.

Weeding Pen

MSR 4,99 €

For easy weeding of your foil project with e.g. self-adhesive vinyl film or iron-on films.

Thanks to its blade, this pen can also be used for piercing air bubbles during film application and for reworking foil work.

Foil Collector

MSR 7,99 €

During the weeding process, strip off your film remnants at the recesses of the film collector. This way, your foil remnants are collected easily and cleanly.

The foil collector can also be attached to your work table using the suction cup on the lower side.

Felt Edge Squeegee

MSR 6,85 €

Our plottiX squeegee for your creative projects – an indispensable tool when working with foils of all kinds. The white plastic squeegee has two working edges.

plottiX Tool Kit

MSR 14,99 €

All helpful tools for the work with cutting plotters now in one set!

Items included:

- 1 x Sptula
- 1 x Scraper
- 1 x Hook
- 1 x Tweezers

Plotter accessories

Hook

MSR 5,99 €

Weed complex or simple designs made of iron-on or adhesive foils with the weeding hook from plottiX in no time!

Weeding is about removing all surfaces that do not belong to your design (e.g. your iron-on foil). With the help of the small hook you can easily and precisely lift and remove unwanted foil areas.

Spatula

MSR 5,99 €

With the spatula you remove your cut designs and lettering from the cutting mat. The spatula is also very suitable for removing cutting residues from your cutting mat.

Tweezers

MSR 5,99 €

The tweezers help you with delicate objects – perfect for small details.

Great with smaller projects or designs, the plottiX tweezers can help you to work precisely.

Squeegee

MSR 5,99 €

Use the squeegee to apply your material to the cutting mat or transfer your vinyl foil projects to smooth surfaces.

You can also use the squeegee to remove scraps of paper or foils from your cutting mat.

Freshmat Adhesive spray

MSR 17,90 €

Freshmat spray adhesive refreshes the adhesive power of your self-adhesive cutting mats. Save money!

In doing so, you avoid unnecessary waste. Exactly for your application – you can adjust the adhesive strength depending on the quantity you use on your mat. Excellent for plotter cutting mats.

FIXtil - Textile Stabilizer

MSR 11,25 €

FIXtil fabric stabilizer is an aid for creative work with fabrics. In other words, with FIXtil you can prepare your fabrics for cutting them with a plotter.

Especially useful for embroidery and sewing work. Use FIXtil to prevent your fabric from fraying. After using this fabric stabilizer your material is also prepared for fabric origami. The stabilizer can be washed out without leaving any residue!

Iron-on foil settings
